FULLY REVERSIBLE

With Arlo reversible U-shaped desks, enjoy the flexibility you need. Arlo bridges connect desk shells and credenzas to create custom workstations. Arlo bridges are compatible with all desk and credenza shells, but when paired with extended corner desks and credenzas the workstation becomes handed due to the inner curve.

Seamless Integration. Endless Combinations.

Height-adjustable desks bring motion and flexibility to any workspace. Ascent bases work with standard laminate collections, pair with the Alloy metal base system for an industrial look, or match your storage. Use Ascent in cubicles, open-plan workstations, home and private offices, nurse stations and classrooms. A whisper-quiet motor won't disturb neighbors, and solid build quality delivers premium performance at a smart price.

ASCENT BUILD TIPS

Ascent standing desks integrate fully with our Arlo and Solace laminate lines and the Alloy metal base line. Remove the foot from the T-leg of the L-shaped base to create a post that tucks under an existing desk shell. For extra stability, add a 45 degree angle bracket (OS-MB2003).

Did you know Ascent bases can go mobile? They arrive with adjustable glides, and an optional 4-pack of casters (OS-I-W4) rolls on hardwood and most low-pile carpet.

Need more storage? Add a credenza with a hutch, mobile pedestal, matching bookcase, lateral file or storage cabinet to complete your office.
